Český Krumlov

Living fairy tale

Have you ever dreamed about what it would be like if time stood still? What if we told you that we know a place where you can make your dreams come true?

Almost anyone who has ever visited Český Krumlov will tell you that in the narrow lanes here you sometimes you feel as if you are in another century. There are few towns which have managed to preserve their medieval and Renaissance character and indescribably tranquil atmosphere. The city, which is dominated by a huge castle and palace, still guards many ancient secrets, and at every step you will find silent witnesses to age-old stories – perhaps ones relating to one of the most powerful noble families long ago, the one with a five-petalled rose on their coat of arms. That family resided in the castle here for three centuries and transformed it into a spectacular Renaissance residence, which was meant to stand as an equal to the royal

Lost in a time warp
...a fairy-tale town buried in the hills of the southern Czech Republic.
